

Material and care instructions for Plastic

Plastic furniture is weatherproof and can withstand exposure to the sun and rain with a little maintenance.

Care instructions

- Rinse/wipe the plastic with a soft brush, water and a mild detergent, such as soap. Wipe clean with a soft cloth afterwards. Always wash the furniture before winter storage to prevent the growth of mildew and algae.
- Extend the life of your furniture by using a furniture cover, even during the summer, if the furniture will not be used for a prolonged period.
- Store the furniture indoors in a dry location or under a furniture cover when not in use. If the furniture is stored exposed, tilt it so that the water easily runs off to prevent water from collecting on it.
